

**SIMPLY
IRRESISTIBLE**

CLASSIC DECK

CLASSIC DECK

Spreading impulse

Placing impulse food products in supermarket aisles and near checkouts has proven to be a successful strategy in today's grab-and-go market. With the Fri-Jado Classic Deck, your customers can pick up delicious, hot and cold pre-packaged snacks and meal solutions practically anywhere in the store.

Shop floor saving design

An upright model, the Fri-Jado Classic Deck 25 and 40 save on valuable floor space. They feature four levels, which allows you to stock numerous products and reduces the need for re-stocking! With a single-phase connection, the self-service Classic Deck can be installed anywhere a proper electrical source is available. Now that's maximum flexibility!

Eye-catching sales promoter

Large glazed walls creating a 180-degree view and products at eye-level in an appealing design make for outstanding product presentation. The striking illuminated sign and the price strips on the shelves create great opportunities for your point of sales promotion.

Clever technology, simple to operate

An efficient combination of conduction heat, airflow and an air curtain helps maintain ideal product temperatures. The Classic Deck consumes surprisingly little energy and is easy to operate!
